

- A reliable and safe tool to transport all materials with a flat, airtight surface such as glass, plastic sheets, sheet metal, coated wood, marble, artificial stone, tiles, etc.
- Equipped with a replaceable rubber pad ø 120 mm.

VERIBOR

Suction Lifter — Triple Cup with Lever

Part Number	Carrying Capacity	Direction
1-603.0	100 kg	Parallel

Material: Aluminum Body

Unit: Each Bulk: N/A

Manufactured By: Bohle

- Replacement pad (1-614.0BL) for BlueLine Veribor suction lifter (e.g. 1-603.0BL), on this page.

VERIBOR

Blue Line Replacement Pad

Part Number

1-614.0BL

Unit: Each Bulk: N/A

Manufactured By: Bohle

- The combination of modern, synthetic material and the high strength of aluminum, both in ergonomic and operator-friendly design, is a special plus of the VERIBOR Blue Line range.

- Suitable for all materials with an airtight surface like glass, plastic, metal, coated wood, marble, etc.

- The vacuum is created by tilting over the levers.

The suction lifter has to be pressed firmly onto the surface with released suction pads (all models ø 120 mm). When activating the levers, a resistance caused by the vacuum build-up must be felt.

VERIBOR

Blue Line Suction Lifter — Triple Cup with Lever

Part Number	Carrying Capacity	Direction
1-603.0BL	100 kg	Parallel

Material: Combination of Synthetic Material and Aluminum
